

ENGRAVING IDEAS

2022

Welcome!

Hello!

Welcome to Klamath Kustom Shop. The place where we customize your drinkware to match your style! As you browse through this catalog you will find many options to choose from, for engraving onto your item.

The process we use is called laser engraving. The laser beam acts as a chisel, bringing the artwork to life by removing the durable powder coated paint and exposing the beautiful stainless steel underneath.

We welcome new ideas. If you need a design not listed in this catalog we will do our best to find or design it for you if you can describe it to us. Please be aware that any design we create or use may be kept by us for future use. There may also be additional fees for this service.

If for any reason you are not 100% satisfied with your engraving, please contact us and we will do our best to solve the issue.

What our customers are saying...

Thanks for the water bottles. Very convenient! Love your service! Thanks again!

I love the color & engraving. Thanks for getting it to me before Fathers day! Thank you.

Thanks for the water bottles! I'm impressed with the engraving and quick service! My namesakes will love them.

Thank You! The bottles look great. Your service was great too, didn't expect them today already!

Hi! Thank you for your prompt service! I was delighted to find it in the mail today - Saturday - and the layout is perfect! Thanks again!

Thanks! The grandchildren love these jugs!

ITEM# **ENGRAVE NAME** (If ordered with illustration,
VNAME **VERTICALLY** name will be engraved verti-
cally on opposite side)

HOW DO YOU WANT YOUR NAME

ENGRAVED?

We have several options for Name engraving. The first option is to have the name engraved **horizontally** below the illustration.

The 2nd option is to have the name engraved **vertically** on the opposite side of the illustration, taking up the full height of the bottle.

There is a small extra charge for this.

If you want the name engraved vertically don't forget to add ITEM # VNAME to the order-form, on a separate line.

LOGO ENGRAVING

If you'd like to have your logo engraved we will need a high-quality digital file of your logo to work with. If you don't have that available contact your logo designer and they can email a copy directly to us.

If the file we receive is of poor quality we may need to charge extra for the time it takes to convert it into a useable file.

Email all logos or logo information to: INFO@KLAMATHPRODUCTS.COM
